

United for Better Wages

At Citrus Valley Medical Center

I've been working at Queen of the Valley for 9 Years. I've dedicated my time and efforts to this hospital because I love my job.

I just bought a house and with the pay I get it's very hard for me to survive with the cost of living in the San Gabriel Valley area.

I know I'm not just saying this for myself. A lot of us who work hard at our Hospital still have to struggle to make ends meet.

That's why I'm uniting with my coworkers. If we all speak with one voice we can fight for the wages we deserve. We don't deserve any less than other healthcare workers.
